

FLASH NEWS

MID-VANCOUVER ISLAND ELECTRIC VEHICLE ASSOCIATION

2020 – May 5, V1– I5 – *Ideas and Responses to: Editor - MVI EVA Flash News - hoth2o@shaw.ca*

Next General meeting - Due to the recent COVID-19 social distancing rules – there are no general meetings currently scheduled. We are trying to sort out the technology so we can have a ZOOM meeting in the next few weeks.

We DID have a second ZOOM board meeting on Sunday, May 3rd and have a few things to tell you.

Not really a Coffee meeting, BUT - we are planning an appropriately socially distanced photo session along the beach in Qualicum on Friday, May 15th at 10:00AM weather permitting. In an effort to populate our web site with Mid Vancouver Island content AND get the membership together in this time of trouble; we want volunteers from the club to show up on the day, back their cars up to the sea wall in a nice orderly socially distanced line, stand in front of their vehicle, and smile for the camera. Bring your own coffee. The photo below shows where we are planning to have this happen – we just need you to show up with your EV.

Please e-mail me if you would like to attend and I will keep you up to speed on this event.

Speaking of web site – Still under construction - our new web site www.islandev.org is up and live. We will have improvements coming fast and furious in the next weeks. Comments & content please.

EV Good news – The two vandalized level 2 chargers in Qualicum Beach have been REPAIRED! Thanks to the Town of QB for getting this done in such a timely manner. More good news – Ludek reported on PlugShare on April 30 that the CHAdeMO plugs have been replaced – unfortunately they could not activate the machine for their Tesla model 3. I will take a run up there and see if it works for my KIA Soul.

Practice safe public charging – Wear gloves or use a sanitary wipe when using public chargers and **Go for a drive** – happy electrified motoring, and LAUGH OUT LOUD every time you go past a gas station ;)
